

What is the Japan Drugstore Show?

Hosted by the Japan Association of Chain Drug Stores and made possible through the efforts of the drugstore industry, the Japan Drugstore Show is Asia's largest exhibition showcasing drugstore products, information, and systems, including pharmaceuticals, health foods, and cosmetics that promote self medication.

The show boasts over 60,000 visitors, including industry members as well as many general consumers who are interested in the announcements of new products and the various events.

While industry insiders hold lively business discussions, general visitors try free samples and participate enthusiastically in seminars and events, making the show full of energy.

To visitors who bring this invitation
